

## Prerequisite Flow Chart for the Statistics & Computer Science Major

/ = prerequisite  
 ← = prerequisite or concurrent registration requirement

\* Students either take STAT 200 during the first 60 hours of coursework or a 400-level Statistics elective, with STAT 426 recommended, thereafter.

† CS 233 can be taken semester 3 or 4. Students with credit for both CS 231 and CS 232 do not need to take CS 233.

\*\* CS 374 is currently being offered as a CS 498 Special Topics course - Algorithms and Models of Comp. CS 374 combines material from the old CS 373 and CS 473. Students who take CS 374 do not need to take CS 473.

Some courses – particularly upper-level electives – may only be offered once a year at most. Be sure to plan ahead!
